

SHUBHAM LANDGE

B.Tech in AI & Data Science | Aspiring Data Analyst / Python Developer

Pune / Pimpri-Chinchwad, Maharashtra, India | [linkedin.com/in/001rshubham](https://www.linkedin.com/in/001rshubham) | github.com/ShubhamLandge07 | shubhamlandge07.github.io

SUMMARY

B.Tech student in Artificial Intelligence & Data Science (with a Diploma in Computer Engineering) focused on turning data into meaningful insights and building practical software solutions with Python. Experienced with Python, SQL, Excel, Power BI, Machine Learning, Data Analysis, Flask, and OpenCV through coursework, internships, and personal projects. Seeking Data Analyst, Data Science, or Python Developer internship opportunities.

TECHNICAL SKILLS

Languages & Tools: Python, SQL, Excel, Power BI, HTML & CSS, Git & GitHub

Domains: Machine Learning, Data Analysis, Computer Vision (OpenCV), Web Development (Flask)

EXPERIENCE

Data Science Intern — CodSoft

Apr 2025 – May 2025

- Worked on real-world data science projects covering data analysis, machine learning, and data visualization.
- Applied Python-based analytics and model-building techniques, bridging academic learning with practical, hands-on application.
- Practiced storytelling with data to communicate findings clearly.

Python Programming Intern — InternPe

Apr 2025 – May 2025

- Built a strong foundation in core Python: data types, control structures, functions, and object-oriented programming.
- Developed mini-projects and scripts to automate tasks and solve real-world problems.
- Gained hands-on experience with NumPy, Pandas, and Matplotlib for data handling and visualization.
- Collaborated with peers and mentors in a virtual environment, strengthening teamwork and communication skills.
- Completed assignments and coding challenges that sharpened problem-solving and coding proficiency.

Project Intern — InternPe

Apr 2025 (1 month)

- Contributed to a short-term project engagement, applying Python skills to a focused deliverable.

PROJECTS

QR Code Based Student Attendance System — Built a system to mark and manage student attendance using QR code scanning.

Sales Dashboard (Excel) — Designed an interactive Excel dashboard to visualize and analyze sales performance.

Data Analysis Projects — Explored and analyzed datasets using Python (Pandas, NumPy, Matplotlib) to extract insights.

Python Automation Projects — Built scripts to automate repetitive tasks and workflows using Python.

EDUCATION

B.Tech, Artificial Intelligence & Data Science

Aug 2023 – Jul 2026

Dr. Babasaheb Ambedkar Technological University (DBATU)

Diploma in Computer Engineering

Jan 2020 – Jun 2023

Maharashtra State Board of Technical Education (MSBTE)
